SAFE CRYOTHERAPY

The °CRYO Penguin™ is designed to deliver the easiest, safest and most effective localised cryotherapy treatments in the industry.

With its ergonomic design, pre-programmed treatment protocols, and built-in safety features, the °CRYO Penguin™ offers the highest standards in cryotherapy treatments. The °CRYO Penguin™ series can also be used to complement and upgrade your existing menu to include cryotherapy treatments.

Protocols for CRYO Facials, Localised CRYO, and Cellulite Reduction treatments.

LED lights and precision lasers to indicate optimal distance, pinpoint treatment area, and alert user when critical skin temperature is reached.

10" Digital touchscreen with user-friendly interface.
Device has a 50 liter mobile nitrogen vessel that can be refilled at any time.

 **ERGONOMIC HANDLE**
With remote control feature.

 **PROTOCOLS**
Special protocols make it simple to use in any specific treatment.

CRYO Penguin

Benefits of cryotherapy

- reduction of swelling and inflammation,
- reduction of pain,
- improves blood circulation,
- muscle relaxation,
- strengthening the immune system,
- oxygenation of tissues (increased efficiency),
- increasing pain threshold,
- increased secretion of adrenaline and testosterone.
